PAOLO NIKKO NUÑAL

SOFTWARE ENGINEER

My passion for working with codes that I have acquired through the years in the academe and industry have solidified my working knowledge and taught me how to deal with different types of situation in the corporate world. As an individual, I am keen to learning new knowledge to sustain my educational needs that is required in the industry. I have excellent written and oral communication skills and can work with less to no supervision.

RECENT PROJECTS

DE Wellness
Philippine Health Insurance Corporation / Full Stack Developer
2017 - 2018

Online Inventory Management System for tracking down the corporation's inventory items all throughout Region 7. Generates detailed reports, tracks item inventory, creates barcode stickers that can easily be tracked via web or through scanning equipment.

Gillamacs / STI – Payroll System
Gillamacs / Front End Developer
2016 - 2017

A payroll system customized for the client; with loans and leaves integration. Features include (but do not limit to) employee management, attendance upload/manual entry, payroll management, loans and leaves handling, and reports (from sectioned payslips that comprised the whole letter-sized paper to LQ300-based sheets).

Cebcar Rental Services – Online Booking System
Cebcar Rental Services / Front End Developer
2016 - 2017

An online booking application for car rentals. This caters the entire booking process from vehicle and date selection to payment. The payment is currently handled via Paypal.

PHIQS – Philhealth Information Queuing System
Philippine Health Insurance Corporation / Full Stack Developer
2015 - 2016

Web application and information kiosk that generates queue numbers, dynamic broadcasting, in-depth analytics, report generation and teller management system. Also interfaces with POS thermal printers in generation of queue numbers.

PHIBA – Philhealth Bank Abstract
Philippine Health Insurance Corporation / Full Stack Developer
2015 - 2016

Web application that lets user input bank abstract reports submitted to the Philhealth Regional Office. It will create a detailed report of the different bank branches, the amount of payables and statistics of Philhealth members.
